TECHNOLOGY SEMINARS

FEBRUARY 13

USING TECHNOLOGY TO MAKE YOUR LIFE EASIER

There are so many things you can do with technology these days, from communication to artificial intelligence. In this seminar, we'll cover a wide array of ways that technology can impact our lives. You'll learn the ins and outs of Wi-Fi and how our CommandIQ Wi-Fi app protects your devices.

MAY 14

TREMOLOTV STREAMING AND POPULAR APPS

While cable TV has been good to us in the past, streaming TV is the future. This technology lets you watch TV shows on virtually any connected device via your internet connection. We'll cover all things streaming- including devices, options, and our tremoloTV app.

AUGUST 13

CYBERSECURITY AND HOW TO STAY SAFE ON THE WEB

Cybersecurity has never been more important. We'll dive into cybersecurity as a whole and learn how to stay safe and secure while online. Topics will include how to distinguish between real and fake emails, how to avoid scams, and what to do if you've been scammed.

NOVEMBER 12

TOP TECH GIFTS AND GADGETS

This annual seminar will update you on all the newest and greatest electronics available. Whether you're shopping for gifts or just want to see what's new, this is a fun, fast-paced seminar you won't want to miss.

Seminars are held at the Crosslake Community Center at 10 am.
